

Amendments To The Drawings:

Please replace the drawing sheet containing Figure 1 with the amended replacement sheet submitted herewith.

REMARKS

By this Preliminary Amendment, Figure 1 is amended to provide reference numerals for voids 11a and 11b, which form an embodiment of the described "source of hydraulic fluid". Figure 1 is further amended to show an accumulation tank 7, which also forms an embodiment of the "source of hydraulic fluid". Support for these drawing changes can be found in multiple locations of the specification and claims, including page 3, lines 2-4, page 3, lines 19-21, page 4, lines 16-18, page 6, lines 19-24, page 7, lines 24-29, and Claims 6, 13 and 14. Accordingly, no new matter is added by the amendments to Figure 1.

The amendments to the specification are being made to support the changes to Figure 1 and to enhance clarity without adding new matter.

Claims 2 - 15 are herein amended with added matter indicated by underlining and deleted matter indicated by strikethrough. Claim 1 is canceled and Claim 16 is new. The indicated claim amendments are being made to eliminate multiple dependencies in the claims and to place the claims in a format more consistent with U.S. patent practice.

Entry of the above amendments prior to calculation of filing fees and prior to examination on the merits is respectfully requested.

Respectfully submitted,

Michael E. Sellers 6/14/2006
